PMP® CERTIFIED

Cert No. 4424704 · Valid to June 2029

ALL DOMAINS: ABOVE TARGET

People · Process · Business Environment

35+ PRODUCTS DELIVERED

AI · FinTech · FreightTech · SaaS · IoT

PROFESSIONAL SUMMARY

PMP®-certified Technical Project Manager and Engineering Leader with 16+ years of experience driving software delivery, team leadership, and digital transformation across AI, FinTech, FreightTech, SaaS, and enterprise platforms — spanning Pakistan, Saudi Arabia, and the United States. Scored Above Target in all three PMP® exam domains (People, Process, Business Environment), reflecting mastery of the full project management spectrum. Proven record of delivering 35+ commercial software products through cross-functional distributed teams, combining deep technical fluency with executive-level stakeholder management and the ability to align engineering execution with strategic business goals.

AI Product Delivery

CAREER HIGHLIGHTS

- **PMP® Certified — Above Target in all three domains: People, Process & Business Environment (June 2026, Cert No. 4424704)**
- 16+ years leading engineering teams and delivering software across Pakistan, Saudi Arabia & the United States
- Delivered 35+ commercial software products spanning AI, FinTech, FreightTech, IoT, Healthcare & SaaS
- Drove 360% platform growth at ZmnLoad through AI-powered logistics optimization and Agile delivery execution
- Led award-winning mobile applications contributing to platforms serving 50+ million users globally
- BSCS First Position Graduate — Forman Christian College (A Chartered University), Lahore, 2010

PROFESSIONAL EXPERIENCE

Chief Technology Officer

Apr 2022 – Present

ZmnLoad Co. · Riyadh, Saudi Arabia (Remote from Lahore, PK)

- Define and execute technology strategy for an AI-powered freight logistics platform operating across Saudi Arabia and Pakistan, aligning roadmap with business growth objectives.
- Lead cross-functional engineering, product, and design teams using Agile/Scrum — managing delivery roadmaps, sprint planning, resource allocation, and executive stakeholder communications.
- Drove 360% platform growth through AI-driven pricing optimization, real-time vehicle tracking, and predictive demand analytics — delivered on time and within budget.
- Established risk management frameworks, change control processes, and QA protocols across all active development streams.
- Built and mentored a distributed engineering team, fostering a high-performance delivery culture and continuous improvement mindset.

Head of Engineering

Feb 2022 – Apr 2022

Dtech Systems · Lahore, Pakistan

- Oversaw end-to-end delivery of concurrent software projects across freight logistics, e-commerce, and enterprise platforms.
- Directed engineering resources, solution architecture decisions, client communication, and project execution within tight timelines.
- Evaluated and implemented emerging technologies and architectural patterns to improve delivery quality and team efficiency.

Technical Project Manager & Mobile Development Lead

Mar 2013 – Feb 2021

SDSol Technologies · Miami, FL (Remote)

- Managed the complete delivery lifecycle of 35+ commercial software products for clients in the US, UAE, and Pakistan — consistently meeting scope, schedule, and quality targets over an 8-year tenure.
- Led cross-functional Agile teams of developers, QA engineers, UI/UX designers, and business stakeholders across enterprise, healthcare, logistics, IoT, VoIP, and eLearning domains.
- Architected and led delivery of award-winning mobile applications contributing to platforms serving 50+ million users globally.
- Established Agile delivery processes, sprint cadences, and project governance frameworks adopted across the engineering department.
- Mentored and developed junior engineers, QA leads, and mobile developers — building a high-performing team culture aligned with PMI best practices.

Software Engineer — iOS & Mobile

2010 – 2013

PentaLoop · GeniTeam · Intagleo Systems · Lahore, Pakistan

- Developed iOS and cross-platform mobile applications across travel, education, social networking, and enterprise domains.
- Contributed to award-winning products serving 50+ million users globally, building deep full-stack and mobile engineering expertise.

CERTIFICATIONS

Project Management Professional (PMP®) · Project Management Institute (PMI) Cert No. 4424704 · Jun 2026 – Jun 2029

★ Scored Above Target in all three domains: People · Process · Business Environment

EDUCATION

Bachelor of Science, Computer Science (First Position)

Forman Christian College (A Chartered University) · Lahore, Pakistan

2006 - 2010

TECHNICAL SKILLS

PM Tools & Methods: Jira · Confluence · MS Project · Agile · Scrum · Kanban · PMBOK · SAFe · Hybrid · Waterfall

Cloud & DevOps: AWS · Azure · GCP · Docker · Kubernetes · CI/CD Pipelines

AI & Emerging Tech: LangChain · Crew AI · Custom AI Solutions · NLP · Speech Recognition · Predictive Analytics

Platforms & Stack: MERN · Next.js · Laravel · Flutter · iOS (Swift/ObjC) · Android (Kotlin/Java) · REST APIs · Microservices

Data: PostgreSQL · MySQL · MongoDB · Firebase · Redis

LANGUAGES

English (Full Professional Proficiency) **Urdu** (Native)
